

2017-18 VRHS Registration

How to count credits toward graduation!

1. Make sure the transcript you have is yours!
2. Use a pencil to complete this! You will be erasing a lot!
3. If needed, see the “What Counts for What” link on the VRHS website (under Student Services and Counseling Services) to help you count credits in appropriate subject sections
4. Start with your freshman year
 - a. Reviewing your transcript, for every class you **pass**-put the grade of that class in the box under the matching subject section.
Ex: If you passed English 1, 1st semester with a “C”. Put a “C” in one of the English subject boxes.
 - b. If you failed any classes (“F” on your transcript) you cannot count it for credit. **DO NOT** place that class in a box as complete.
5. Go through every year on your transcripts
 - a. If you have already filled all the subject boxes for a certain section, put any extra classes under the “Electives” section at the bottom. Ex: you have fulfilled all your Fine Arts credits but have also taken another 2 classes that count for Fine Arts. Those two would be placed under the “Electives” section.
6. Now take the classes on your current schedule and make an “x” in the appropriate boxes so you have an approximate idea where your credits will be at the end of the year - **ASSUMING** you will pass them.
7. If you are unsure of where to place a class you have passed, ask your counselor/academic advisor during registration.
8. Passed *Credit Recovery* classes count as .5 and should be placed as a “P” on the summary sheet.
9. You may have earned credit for TCAP or CSAP or PARCC. This must appear on your transcript and only counts for an elective, pass/fail class.
10. If you participated in a sport and it is reflected on your transcript, you can count up to one total credit under either the PE or Electives section. After you fulfill the one year maximum credit, you may not count sports toward any credits. The sport **must** be reflected on your transcript to be counted.

Now you know what you need for the next year (or few years) and where you are as far as graduation goes! This will help you pick classes for next year!
