## HOME BASED EDUCATIONAL PROGRAMS FOR CHILDREN

22-33-104.5 – Home Based Education – legislative declaration – definitions guidelines.

The general assembly hereby declares that it is that primary right and obligation of the parent to choose the proper education and training for children under his/her care and supervision. It is recognized that home-based education is a legitimate alternative to classroom attendance for the instruction of children and that any regulation of non-public home-based educational programs should be sufficiently flexible to accommodate a variety of circumstances. The general assembly further declares that non-public home-based educational programs shall be subject only to minimum state controls, which are currently applicable to other forms of non-public education.

**Parent is to provide written notification of a home-based education program fourteen (14) days prior to the start of the program and each year thereafter if program is maintained.**
