

Audacity Instructions:

1. Assignment – **AUDACITY**

a. Assignment Details:

- Students need a minimum of five parts. An example would be: Music – DJ – Reporter – DJ – Music.
- Students have to create a script - to use for recording purposes.
 - 175 – 200 Words = 1 minute of talking
- Total time for recording project must be under 3 minutes.
 - Total talking time must be between 2:15 – 2:30.
 - Music time should be 30 – 45 seconds, this includes both parts

b. General Information:

- Audacity is a recording program
- There are no handouts for this assignment. The students have a copy of some instructions in their own folders on the computer. The instructions are a PDF document.
- Students may be able to help one another, but one of my rules is that they “tell them how to do it”, “not do it for them”. A student should not be using another student’s keyboard or mouse to show them what to do.
- Students will be using the headphones for this project as they have a microphone attached to them.
- Students may have their I-Pods, MP3 Players, Phones out, but they are to be used for recording only. Students are not to be listening with them for free entertainment during classroom time.
