 - 2 Different MLOs: 3A (2014) safety/security, technology, programing and teacher compensation and 3B (2016) salaries, **refresh/refurbish**, additions and renovations to the high schools, 2 new elementary schools
 - **Refresh/refurbish**: what are the needs of the district? i.e. Ventilation systems or holes in the carpet then we prioritize into compliance issues down to personal requests; MLO was passed to help us catch up
 - SACs were able to add and subtract from the list; priced out then goes to the board (sent back so that security was above athletics)
 - Allowed to go over projects by 10%; if more than that, must come back to the committees to be revised/reprioritize
 - Athletic package includes: turf field, track and field (long jump, pits; all in compliance with CHSAA rules), stadium, repaving/resurfacing track

- A lot of the lights on the field were out and are turning pink 25K
- 5 fire doors that were written up and needed to be fixed/replace 30K
 - *Melissa will try to move into 3A instead of 3B
- Drainage is an issue; broken into two phases 50K
- Hot water coil 25K

VII. Questions

A. Do we need to look at Graduation Guidelines in the spring?

1. No but we may need to see what the Capstone looks like after that work is complete (what does it look like for each subject, IEPs, ELD)

B. How is homebound tutoring set up now?

1. Case by case basis, ask teachers first, we use teachers that are highly qualified but also have a relationship with the student
